DSL or LAN

Calling Plans Offer Variety and Exceptional Value in Video Communication

When video is a part of your daily telephone communication, you will see the difference in every call you make. Family, friends, and loved ones who are far away—in another county, state or another country—are within visual contact with the press of a few buttons. Now, your high-speed Internet connection, combined with the GXV-3000 IP *desktop* videophone and one of WCCI's money-saving V2VIP calling plans, you can bring parents, grandparents, students, or the home-bound into a family room, den or dorm for one low monthly fee.

GXV-3000 IP Desktop

- H.264
- Up to 30 fps
- Full-duplex Speakerphone
- Hold Button
- 5.6" Tilt, Swivel, Fold-down LCD Screen
- Redial / Speed-dial

And, a great deal more!

Choose Black or Silver

Only \$149.00

Choose one of three Calling Plans—each designed to seamlessly integrate with the GXV-3000 IP *desktop* videophone—for *plug-and-use*, high-quality, full-motion video and crisp, clear audio over any broadband Internet (cable modem or DSL) connection.
